SUMMERTIME VANITY UNIT

A vanity unit with a characteristic Sixties design, Summertime evokes the aesthetics of liquor bars of that period.

The smooth and shiny curved lines of the wood structure, together with the black-white colour contrast, accentuate the effect of sophisticated compactness. Three large, push-open drawers make Summertime an extremely capacious and functional vanity unit. Its top and upper part are absolute black granite, while the Rose model washbasin is in white porcelain.

Summertime can be produced in a soft nuance cream with deep black profiles, or in warm grey, blue violet, red, fango, prune and antique aluminium leaf. The top and upper part are available in the following catalogue marbles: white Carrara, black Marquinha, Calacatta, white Afyon, absolute black granite, Botticino Fiorito, crema Marfil, graphite grey and Bardiglio grey.

Dimensions: cm 125x62x96,5h

SUMMER MIRROR

An elegant shaped glass mirror with rounded corners and diamond-cut edges that creates a particular frame effect. Summer has two original deep black lacquered wood inlays in the upper and lower parts of the frame, and can also be produced in pure white, cream, warm grey, blue violet, red, fango, prune and antique aluminium leaf.

Dimensions: cm 105,5x81h

BLACK MORRIS TAPS AND FITTINGS

A sought-after design inspired by models of the Forties, the Black Morris taps and fittings are simple while having a distinct identity. The design of the handles, a strong element of the collection, is characteristic: cylindrical, flared shape, simultaneously retro and contemporary. The range comprises: three-hole tap and one-hole tap for washbasin and bidet, wall-mounted bathtub unit, deck-mounted bathtub unit, free-standing legs, single flow spout, cut-off tap and inset diverter with porcelain handle. Available in the following finishes: chrome, light gold and polished nickel.

CONSOLE SOUND

A classically inspired washbasin console, Sound combines the particular lightness of the metal structure to fine materials and compact dimensions, features that make it an exquisitely versatile piece. Sound has a graphite grey marble top and upper part, with a washbasin, Babylon Ceramic, in white ceramic; the legs are tapered and decorated with turned brass elements, with a polished nickel finish. A practical shelf completes the console. Available also in chrome and pale gold finishes.

Dimensions: cm 60x52x95h
